

Profile Summary

Computer Science student with hands-on experience in full-stack development and real-time application design. Built deployed web platforms, AI-driven solutions, and data-focused systems through projects and hackathons. Proficient in Java, Spring Boot, and modern web technologies. Seeking a Software Engineer Intern role to contribute to scalable, production-ready systems.

Tech Skill

- Programming Languages: Python, Java
- Frontend: HTML, CSS, JavaScript,React.js
- Backend Frameworks:Spring Boot
- AI / Machine Learning: scikit-learn, pandas, matplotlib
- Database: MySQL
- DevOps / Tools : Git, GitHub
- Design Tools: Figma, Canva

Projects

- Debugging Contest Web Application | Spring Boot, HTML, CSS, JavaScript

2026
- Built full-stack debugging platform for 50+ participants with problem display and submission handling.
 - Successfully deployed and used in live event environment.
- Smart Water Quality Management System | Python, Random Forest, LSTM

2026
- Built RF + LSTM water quality classifier with SAFE/UNSAFE output; 91% accuracy on 10K samples.
 - Deployed Explainable AI insights with rule-based safety alerts for real-time monitoring.
- AquaTrack - Water Usage Tracker | JavaScript, HTML, CSS

2026
- Built interactive water management app with real-time tracking, analytics dashboards, and refill notifications.
 - Enhanced engagement using progress indicators, visualizations, badges, and responsive UI design.

Hackathons

- Smart India Hackathon

2024
- Developed “Trash-Alert” IoT waste system with automatic segregation, UV sanitation, real-time alerts.
 - Integrated Arduino sensors for touchless operation, organic waste detection, overflow prevention.
- HackGent Hackathon | MNM Jain College

2026
- Built agentic AI system for hospital resource allocation across doctors, beds, rooms.
 - Designed event-driven engine with continuous re-optimization reducing wait times and improving utilization.

Internship

- React.js Intern | Codtech It Solutions

2026
- Built 5+ reusable React components with hooks for a client dashboard, enabling scalable, production-ready UI delivery.
 - Applied Git workflows, code reviews, lazy loading, and code splitting for improved performance.

Education

- BE.Computer Science And Engineering | Meenakshi Sundararajan Engineering College

2027
- CGPA: 8.95-up to 5th Semester
- Higher Secondary (94%) | Anna Adarsh Mat.Hr.Sec.School

2023

Certifications

- Reliance Foundation Skilling Academy:Frontend Web Development
- FreeCodeCamp:Responsive Web Design Certification (240+ Hours)
- FreeCodeCamp:JavaScript(200+ Hours)
- Python Programming: Shanthi IT Solutions
